**Amendments to the claims:**

The listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently amended) A tank system comprising:
  - a tank containing gas;
  - a heater attached to the tank for heating the tank, the heater having sufficient heating capacity to maintain pressure in the tank when gas is withdrawn from the tank;
  - a power source with sufficient power to operate the heater;
  - a sensor for providing a signal indicative of flow of gas from the tank, in which the sensor detects a difference in temperature of the tank from ambient temperature as indicative that flow of gas from the tank is occurring; and
  - a processor responsive to the sensor signal and communicating with the heater, the processor being configured to energize the heater with power from the power source when gas flows from the tank.
- 2-4. Cancelled.
5. (Original) The tank system of claim 1 in which the tank contains liquid petroleum gas.
6. (Original) The tank system of claim 1 in which the tank contains propane.
7. (Original) The tank system of claim 1 in which the tank system is installed at a remote oil industry site.
